

TMU offers an SSL VPN service that allows users to connect to their TMU computers and other IT resources from off campus.

****When using the VPN please ensure your home/personal computer is up to date with all security patches and has an active and current antivirus or endpoint protection program.****

To connect to the TMU VPN:

Go to <https://vpn.thomasmore.edu> and login with your username/password

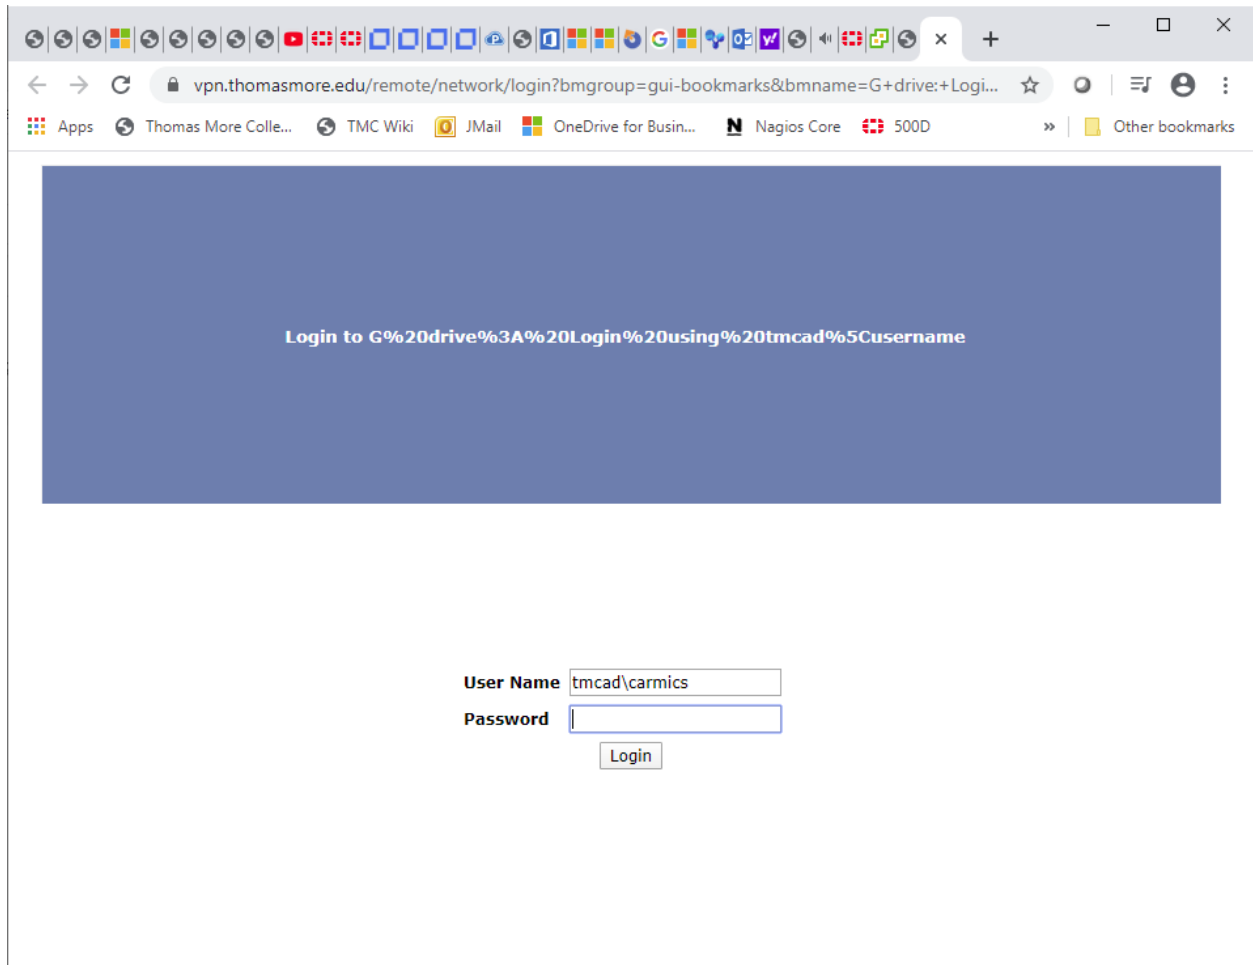

Once logged on you will see the following screen with links for G: and L: drive files and a “New Bookmark” button at the bottom.

The screenshot shows a web browser window with the address bar displaying `vpn.thomasmore.edu/sslvpn/portal.html#/`. The browser's taskbar at the top shows various application icons. The page content is as follows:

- Welcome to TMU VPN Service**
- Buttons: [Launch FortiClient](#) and [Download FortiClient](#)
- Bookmarks**
- Three bookmark cards, each with a document icon:
 - `\\controller-2\COMPCTR\FILES`
 - G drive: Login using `tmcad\username`
 - L drive: Login using `tmcad\username`
- Buttons: [Quick Connection](#) and [+ New Bookmark](#)

If you just want to work on files from your G: or L: drive, you can click those links here. You will need to enter your username and password again. **** Username needs to be in the format of: tmcad\username**

The screenshot shows a web browser window with the following elements:

- Address bar: `vpn.thomasmore.edu/remote/network/login?bmgrou...&tbmname=G+drive:+Logi...`
- Page title: `Login to G%20drive%3A%20Login%20using%20tmcad%5Cusername`
- Form fields:
 - User Name**:
 - Password**:
- Buttons:

(Page title at top is jumbled due to a software bug that the vendor is working on fixing.)

If you want to connect to your computer at work click on the “New Bookmark” button. Then click the “RDP” button in the 3rd column.

Welcome to TMU VPN Service

Save Cancel

Fill in boxes as follows:

Name: can be whatever you want. Ex. My PC

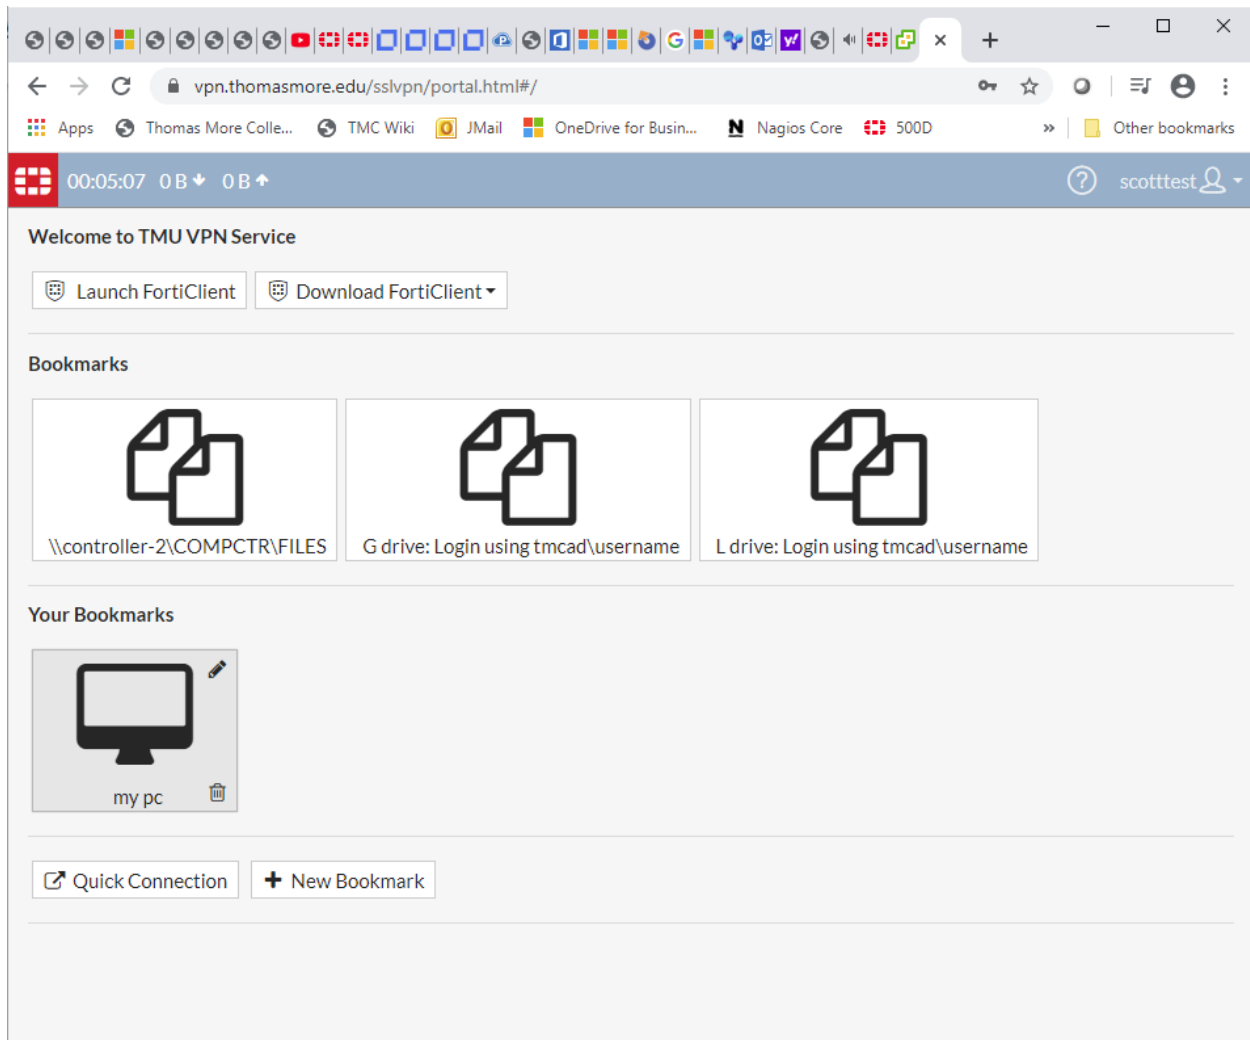

Host: this is the name of your work computer. Most are last name + first initial. Computers should have name stickers on them. Enter the computer name with the “tmcad.thomasmore.edu” suffix. Example: carmichaels.tmcad.thomasmore.edu

Use SSL-VPN Credentials: THIS IS new for 2022. You need to enter your Username and Password DON'T use SSL as shown in the picture.

Security: Allow the server to choose the type of security.

Leave all other boxes as is or blank. Click Save.

You will now have a new bookmark with the name you gave it. Click that and it will open a new tab in your browser and connect to your work computer. When finished be sure to close all tabs to disconnect. ****work computer needs to be powered on in order to connect****

If you have any problems connecting contact the service desk by

- browsing to <http://helpdesk.thomasmore.edu>
- emailing helpdeskticket@thomasmore.edu
- calling 859-344-3646
- or stopping by the helpdesk inside the computer center on the lower level of the main administration building
